Stuart,

It seems as though you are making mistakes.

First and foremost, your mistyping your email account.

It is not [vice\\_president@oldla.org](mailto:vice_president@oldla.org)

It is [vice-president@oldla.org](mailto:vice-president@oldla.org)

Secondly, your question regarding "oldla.leg" is interesting; send me a photo so I can see it. Please also include a screenshot of your mail client setup.

Regards,

When you get a moment let me know  
I sent myself an email from the "[oldla.org](mailto:oldla.org)" account.  
when I hit reply the email address said "oldla.leg".  
and I never received the returned email.  
is that a problem in my setup or something else. When I typed into mail a  
test from my earthlink account [vice\\_president@oldla.org](mailto:vice_president@oldla.org) I received an  
error message about an illegal address?
